TRANSPLANTED TREES

GENERAL INFORMATION

HOW TO SEND MONEY. Remittance should be made by Postoffice or Express Money Order or by Bank Draft. Personal checks on banks are accepted. U. S. stamps are accepted if order is less than \$1.00.

DELIVERY OF GOODS. Goods may be sent by mail, express or freight.

EXPRESS AND FREIGHT. Quotation F. O. B. here means that we deliver the goods to the express or railway company. The purchaser pays the transportation charges on receipt of goods. On moderate sized orders we advise express shipment rather than freight.

Upon delivery of goods to transportation company, a sale is completed. In event of loss or damage to goods in transit the purchaser must have notation of such loss placed upon his receipt, and may then file claim for loss at his station, or may send the necessary papers to us when we shall gladly enter claim for him, remitting to him as soon as the claim is paid.

In regard to trees and plants, sent by express, and damage noted by consignee at the station, we are glad to replace or refund. We do

not guarantee nursery stock and plants after being taken from the express office, but are always willing to give attention to just claims for loss. We do not make C. O. D. shipments of perishable goods.

OUR RESPONSIBILITY. It is so manifestly impossible for a seller of any perishable goods to be responsible for what happens to them after they leave his hands, especially goods like trees and plants which are planted in the ground under varying conditions of soil and climate, that we, in common with all American nurseries, disclaim responsibility.

Remember that our responsibility ceases upon delivery in good order to the transportation company, and it is therefore imperative that every purchase be carefully examined for loss or damage before receiving it.

We do not guarantee replacement of goods sent by mail. We cannot insure plants and nursery stock so there is no recourse in case of delay and injury when mailed.

PACKING. No charge is made for boxes, bags or wrapping for any goods offered in this catalog.

MISTAKES. These will happen in spite of all care. Write us at once with copy of original order and order number, and mistakes will be promptly rectified. Please do not return goods until you hear from us. Notify us if you hear nothing of your order within a reasonable time.

All stock offered for sale has been inspected by an authorized State Inspector and found to be apparently free from disease and insect pests. An inspection certificate to that effect accompanies each order.

Our nursery stock is all grown on high ground, and is therefore best adapted to this locality.

To those within driving distance, we have many items that we do not list in this catalog.

South Dakota customers—Please add sales tax.

ANDERSON NURSERY

6 miles west of Milbank on Highway 12

P. O.—TWIN BROOKS, S. DAK.

Our transplanted trees are well branched, extra heavy calibre.

ASH TRANSPLANTS—Green Ash is one of our native trees and rates as one of the hardiest trees and should be planted in with shorter lived trees.

3 to 4 feet each .75

AMERICAN ELM—The American Elm is perhaps the most beautiful shade tree that can be grown.

5 to 6 feet each \$1.00

6 to 8 feet each \$1.50

CHINESE ELM—A fast growing tree. A good tree for wind-breaks.

4 to 5 feet each .75

5 to 6 feet each \$1.00

NORTHERN COTTONWOOD—A fast growing tree that serves well. It grows to enormous size quickly.

5 to 6 feet each .50

HACKBERRY—It is a perfectly hardy, rapid growing, beautifully shaped tree.

4 to 5 feet each \$1.25

NIOBE WEeping WILLOW—This tree attracts much attention with its long, slender and drooping branches. It is a beautiful tree near the pool on the lawn, in parks and in cemeteries. Grows rapidly and in spite of its height will touch the ground with its branches.

5 to 6 feet each \$1.25

BIRCH—Cut-Leaf Weeping—One of America's most beautiful trees.

4 to 5 feet each \$3.25

5 to 6 feet each \$4.25

WHITE BIRCH—The branches arch gently to an open crown. White bark. Yellow leaves in autumn, makes this a showy tree.

4 to 5 feet each \$1.50

NORTHWEST POPLAR—A nicely shaped tree with large glossy leaves.

3 to 4 feet each .40

BOLLEANA POPLAR—An ornamental poplar. Foliage is silver beneath. Shape, tall, upright grower. Very popular.

4 to 5 feet each \$1.50

LOMBARDY POPLAR—This is the poplar that is used so much for avenue or background planting. They form tall, stately columns of dark, shiny-green leaves. It succeeds in soil too poor for other trees, and grows rapidly.

5 to 6 feet, heavy each \$1.00

4 to 5 feet each .75

3 to 4 feet, light each .35

EUROPEAN MOUNTAIN ASH—Very pretty. Fine foliage, red berries. Bush form.

4 to 5 feet each \$1.50

HOPA-CRAB—An outstanding ornamental tree producing fire red fruit, especially valuable for jells. The foliage is beautiful and red in the early stages. Flowers appear in immense clusters covering entire tree; very fragrant.

4 to 5 feet each \$1.75

EVERGREENS

BLACK HILL SPRUCE—Balled and Burlaped.

12-18 inches each \$4.75

18-24 inches each \$5.75

2-2½ feet each \$7.00

2½-3 feet each \$8.00

3-3½ feet each \$10.00

3½-4 feet each \$12.00

4-5 feet each \$15.00

JUNIPER VIRGINIANA

Balled and Burlaped

2-3 feet each \$8.00

JUNIPER SAVIN

Balled and Burlaped

18-24 inches each \$7.50

JUNIPER VIRGINIANA—Twice transplants

12-18 inch mudded roots each \$1.00

18-24 inch mudded roots each \$1.50

JUNIPER SCOPULORUM—Twice transplants

12-18 inch mudded roots each \$1.00

18-24 inch mudded roots each \$1.50

SHELTERBELT SEEDLINGS

FRUITS

ALL VARIETIES HARDY AND SUITABLE FOR THE NORTH

ALL VARIETIES OF APPLE TREES, 4 to 5 feet each \$1.15

- ANOKA APPLE**—Has proved to be very hardy. Often bears the second or third year after planting.
- HARALSON**—The winter apple. Bears a good crop of large handsome apples.
- WEALTHY APPLE**—Noted for its hardiness. Bears a heavy crop.
- BEACON APPLE**—Finest early fall eating apple. Tops in flavor, and all red.
- NEW PRAIRIE SPY APPLE**—A good keeper, super quality apple that can't be beat by fruit from any section.
- YELLOW TRANSPARENT**—Is a large attractive early summer apple of top quality for dessert or cooking. Skin is yellow to orange.
- MIN-JON**—A new Jonathan that thrives and bears in the north. Excellent quality. Attractive bright red.
- DUCHESS**—A summer apple of excellent quality.
- NORTHWESTERN GREENING**—A very attractive winter apple, with smooth, waxy, clear pale yellow skin with a slight greenish tinge. The flesh is crisp and mild.
- WHITNEY CRAB**—One of the best and hardiest. Bears a good crop of large crab apples.
- DOLGA CRAB**—Solid red fruit, very hardy. An ornamental tree as well as fruit.

Price Above

ALL VARIETIES PLUMS AND CHERRIES

- 3 to 5 feet each \$1.25
- WANETA PLUM**—The most famous of all Hansen's Hardy Hybrid Plums. Fruit is huge, bright red outside and crisp. Sweet juicy, yellow inside. Bears heavy, and extremely hardy.
- OPATA PLUM**—Here is a tangy, acid flavor that so many like so well. It ripens early, is a dark purplish-red plum of medium size. The flesh is green. Wonderful for canning.
- SUPERIOR PLUM**—The Superior ripens very early, fruit is large, beautiful red, firm flesh and exceptionally high quality. Can be peeled as you peel a peach. It is really a wonderful plum.
- UNDERWOOD**—This plum is the right type for the Northern states. It ripens early. The fruit is very large, red, juicy and sweet. It is of fine quality and is entirely hardy.
- EMBER**—Firm yellow plum with red blush. A fine keeper. Good for eating or canning.
- LaCRESENT**—Very nice sweet yellow plum. A good plum for eating off trees or canning.
- PIPESTONE**—Large early red plum. Very high quality for all uses.
- REDCOAT**—Perfectly freestone. Early, large red plum; prune shaped. Half like a peach.
- OKA CHERRY**—Very hardy tree, bushy habit. Usually bears first year after planting. Dark red flesh and skin. Very good.
- COMPASS CHERRY**—Fruit bright red. Sweet in flavor. Plant a few Compass Cherries alongside your OKA Cherries for pollination.
- NANKING CHERRY**—The outstanding Bush Cherry of today. Bright red fruit. You'll surely like these.

Price Above

- PROF. HANSEN BUSH CHERRY**—Very hardy. Fruit when dead ripe is of pleasant taste. Fine for jam and jelly.
 - 2 to 3 feet each .40
 - 3 to 4 feet each .65
- LATHAM RASPBERRY NO. 1**—One of the best. Large red fruit. Good flavor. 12 for \$1.75, 50 for \$6.50, 100 for \$12.00
- BETA GRAPE**—The hardiest of the large grapes and if planted in a sheltered location and with a little winter covering it will grow any place in the northwest.
 - 2 years each .50
- NATIVE WILD GRAPES**—The grape that requires no pruning or care of any kind. A dozen plants will give you several bushels of grapes in just a few years.
 - 1 yr. Seedlings—12 for \$1, 25 for \$1.75, 100 for \$5.
- RED LAKE CURRANT**—Originated at Minnesota experiment farm. Tested in all localities and recommended from all sources. Ripens mid-season. Berries red, unusually large: clusters large and filled with berries. We think it will prove to be the coming commercial and home currant.
 - 2 years each .50
- PIXWELL GOOSEBERRY**—Bears profusely. Fruit is of the very best quality.
 - 2 years each .65
- RHUBARB OR PIE PLANT**—Plant your rhubarb in deep, rich soil, in rows 4 feet apart and 3 feet apart in the rows. The crown bud should be about an inch below the surface of the ground. Rhubarb will make you the earliest material for pies and desserts, also valuable for canning. Get some plants started this year. They take little space and give you so much useful material for your kitchen.
- CANADA**—All red each .50
- GEM EVERBEARING STRAWBERRIES**—Heavy yielding. The favorite strawberry for Constant Bearing. We have grown and sold the "Gem" for many years. Throughout the drought years, and from all sections of the Middle Northwest, reports have come back from customers saying: "We never saw a strawberry that could beat the Gem."
 - Per 100, \$4.00 Per 50, \$2.25 Per 25, \$1.25
- DUNLAP STRAWBERRIES**—Sure, heavy crops. We probably can't tell you strawberry growers anything new about the Dunlap because it is one of the old standbys that everyone knows, but let us remind you: The berries are a dark crimson, with deep red flesh and marvelous quality. The plants are healthy, vigorous and very productive. They grow in all kinds of soil and in extremely cold climates. Wonderful variety for canning.
 - Per 50, \$1.50 Per 100, \$2.50

HARDY SHRUBS

TARTARIAN HONEYSUCKLE—A beautiful shrub. Valuable for hedge, group or individual planting. Red and white flowers. Fragrant. Sizes we quote are suitable for immediate effect planting.

18 to 24 inches each .40

PERSIAN LILAC—Gradually replacing the older type because of its regular blooming habit and the fact that it spreads very little. Blooms a week or two later than the common. Color more purplish than the common.

18 to 24 inches each .75

MOCK ORANGE—New Minnesota Snowflake. The double flowers are the largest, handsomest and the most sweetly fragrant of any known variety. 5-7 feet tall.

18 to 24 inches each \$1.25

MOCK ORANGE—(Virginilas) Single.

18 to 24 inches each .75

COTONEASTER—This very hardy variety makes an excellent hedge, protecting as well as ornamental. Leaves are dark green, always healthy. It is best to trim heavily for the first two years, so as to make the plant bushy. This of course applies to any kind of trimmed hedge.

2 to 3 feet each \$1.00

PURPLE LEAF CISTENA—A new shrub introduced by Prof. Hansen of the South Dakota College. Very striking purple foliage—fine color effect. Used in landscape plantings. Very hardy dwarf and compact. A showy shrub desirable in any landscape.

18 to 24 inches each \$1.00

SPIREA FROEBELI—Pink flowers. Blooms in midseason. Red tinted leaves; very handsome.

12 to 18 inches each .50

SPIREA VAN HOUTTE—The leader of all Spirea. Very graceful with its drooping branches. Beautiful white flowers. Commonly known as bridal wreath.

2 to 3 feet each .75

18 to 24 inches each .50

SPIREA BILLARDIA—Pink, 5 feet tall. This hardy Spirea should be in every garden; once you see the fine fluffy flower spikes of this variety it will be a shrub you admire. Blossoms come almost all summer, and are very showy.

18 to 24 inches each .50

HIGH BUSH CRANBERRY—Glossy green foliage, white flowers.

18 to 24 inches each .85

NANKING CHERRY—A beautiful landscape shrub with a variegated leaf. Also very valuable for its fruit.

2 to 3 feet each .85

HOPA CRAB—An outstanding ornamental tree producing fire red fruit, especially valuable for jells. The foliage is beautiful and red in the early stages. Flowers appear in immense clusters covering entire tree; very fragrant.

4 to 5 feet each \$1.75

ROSE TREE OF CHINA, (Prunus Triloba)—The rose tree of China when in full bloom is breath-taking. It is covered with bright pink double flowers which somewhat resemble a rose. The tree blooms in May of the first year after planting. Grows 6 to 8 feet high.

2 to 3 feet each \$1.25

RED DOGWOOD—Crimson twigged shrub. A sturdy, beautiful shrub with heavy foliage and bright red bark. In the winter the red bark shines in the snow and adds a touch of brightness to the dark season. Plant looks like a mass of fire. Covered with white blossoms in summer. Grows to 4 to 6 feet.

18 to 24 inches each .75

YELLOW DOGWOOD—18 to 24 inches each .75

PINK ALMOND (Double Flowering)—Every branch lined with flowers. In early spring, before other shrubs are in bud, the Flowering Almond is a bride's bouquet of double pink, rose-like flowers... Every branch is covered. It is hardy and "breath-takingly" beautiful. Loads of flowers one year after planting. It grows to five feet. Use it in beds or in the shrub border.

18 to 24 inches each .85

TAMARIX—Strong growing, hardy shrub with purple branches, silver foliage with pink flowers in large panicles.

18 to 24 inches each .65

ENGLEMANN CREEPER—Climbing vines. One of the best.

2 years each .40

HEDGING—Hedges are the cheapest kind of fence you can have, and they are so much more attractive, they add much to the value of your property. You don't have to repair this kind of fence and they're ideal for making your lawn private.

CHINESE ELM HEDGING—6 to 12 inches \$2.00 per 100

HONEYSUCKLE—Transplants—branched—a hedge in a hurry.
12 to 18 inches \$15.00 per 100

Mr. and Mrs. Anderson cutting Gladiolus for their flower loving friends. Some of these Glads grew to a height of 4 feet.

GLADIOLUS

Enjoy a breathtaking riot of colors in your garden, and an abundant supply of gorgeous cut flowers to brighten your home! Named Varieties.

Large Jumbo Bulbs \$1.00 per Doz.

Elizabeth the Queen—Lavender

Purple Supreme—Purple

E. C. Cole—Light Salmon

Blue Beauty—Blue

Red Charm—Clear Red

Spotlight—Yellow, Red Spot

Snow White—Pure White

PERENNIALS

PLATYCODON - Balloon flower—June and July. 18 in. grandiflorum, blue 40

DELPHINIUM—Gold Medal Hybrid. Tall, well filled, double and semi-double flowers from purplish-blue to white.

each .40

BLEEDING HEART—Old style, 3 to 5 eye.

each .60

DAHLIAS—Choice varieties, pink, yellow, white, red, lavender.

each .45

ACHILLEA, The Pearl—Large double white. 18 in. June and July

each .40

GIANT TIGER LILY—A grand lily with large pyramids of orange-red flowers spotted with purplish black. August and September. One of the hardiest and most easily grown

each .30

PHLOX, subulata, Moss or Mountain Pinks—Rose-pink; darker eye. Blooms again in the fall

each .35

HEMEROCALLIS—Day lily. Regal. A fall flowering yellow, very attractive

each .35

SHASTA DAISY—White improved Elder.

each .35

LILY, Elegans—This is the original Red Russian lily, and is best adapted of any one of the Elegans for outdoor planting. Deep red. Stem rooting. Erect blooms. June and July

each .35

LILY OF THE VALLEY—The Lily of the Valley thrives and throws up its beautiful, modest fragrant white bells in almost any kind of soil. Will also adapt itself to pot culture in the winter. Its delicate, permeating fragrance makes it especially desirable

each .35

GYPSOPHILA, Baby's Breath—Bristol Fairy. Wonderful, new double white flowers, in which the individual blossom is much larger. Highly prized for cutting. Flowers continuously through the summer.

2 feet each .60

LYTHRUM (Morden Pink)—Originated at Morden Experiment Station, Manitoba, Canada, grows to a height of three to four feet and covered with deep pink florets. Blooms from late June to September

each .60

PEONIES

Peonies may be planted in the fall or spring. Avoid planting too deeply, as this is often the cause of the shy blooming; 1 inch of soil over the crown (eyes) being sufficient.

KARL ROSENFELD - Red—Very large, beautiful blood red, of globular shape.

FESTIVA MAXIMA - White—Beautiful large double white with frilled pedals and a bright center. Strong growth with stiff stem. Queen of the whites.

MONS JULIETT—Beautiful rose pink.

MARY LEMOINE - Sulphur White—Large flower. Exceptionally strong stems. Flowers are very fragrant. Four to five eye. Strong roots. Sure to please.

Your Choice of Above Varieties, each .75

HARDY ROSES

F. J. GROOTENDORST—Ever-blooming Rose. Small, bright red, double French flowers, produced in large clusters resembling bouquets of red carnations. It blooms profusely from spring until frost. A very vigorous plant, growing to a height of about 6 feet. When kept trimmed to a height of about 4 feet it makes a fine ever-blooming hedge. A very desirable shrub.

PINK GROOTENDORST—A shell-pink flowered form of F. J. Grootendorst. Blooms throughout the season.

SIR THOMAS LIPTON—Flowers perfectly double; pure white; very fragrant; borne in profusion in the spring and sparingly through the summer and fall. Extremely hardy.

HARRISON'S YELLOW—Semi-double, bright yellow flowers covering the large bushes early in the season. Hardy everywhere.

Large 2-year-old field grown plants, \$1.25 each

PURE KENTUCKY BLUE GRASS SEED

Don't waste time and money on cheap mixtures which include annual or pasture grasses. Pure Kentucky Blue Grass Seed is the best grass seed you can buy. 2 to 3 pounds is sufficient for the average lawn per pound, .95

Dear Tree and Flower lovers:

We are not able to call on you personally, so please accept this circular as a personal contact and an invitation for you to visit us. We want you to see our plantings and the work we are doing. We will gladly give you information on the handling and planting of trees. We have no agents or salesmen on the road so please send your order direct or see us in person, we will try to serve you to the best of our ability. Everything we grow is grown the Organic Way, as much as possible. Grow your vegetable garden the Organic Way for good health.

ANDERSON NURSERY
